## Introduction

The Volvo public charging service rates are governed by the maximum charging speed.

Volvo public charging service differentiates the following charging speeds:

- AC – alternating current (normal charging)
- DC – direct current (fast charging)
- HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the Volvo public charging service website and the app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

## Volvo public charging service

The rates that apply to an individual charging event at the respective charging station can be found in the app and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

All prices include VAT

- 1) Prices vary according to the theoretical maximum charging speed of the charging station plug (kW). When searching for a charging station, you can filter by plug power level (kW) to know in advance which prices will apply. These prices are displayed before charging on the map, within the App or on the Volvo public charging service web-page.
- 2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

### **Charging Event Transaction**

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Volvo public charging service service at free charging stations.

All rates incl. VAT, subject to changes and errors.
