#### Volvo public charging service

provided by Digital Charging Solutions GmbH

# **Price List Ireland**

### Introduction

The Volvo public charging service rates are governed by the maximum charging speed.

Volvo public charging service differentiates the following charging speeds:

AC – alternating current (normal charging)
DC – direct current (fast charging)
HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the Volvo public charging service website and the app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

Get smooth access to one of Europe's largest public charging networks with just one card or the Volvo Cars app.

- One of Europe's largest charging networks
- Free charging card
- Plug & Charge feature for supported Volvo models

| Base fee                  | 0.00 EUR / month  |  |
|---------------------------|---|--|
| AC charging <sup>1)</sup> | Flexible Prices   |  |
| DC charging <sup>1)</sup> | Flexible Prices   |  |
|                           | Due to a temporary adjustment of VAT from 13.5 % to 9 % percent, charging prices in Ireland will be adjusted accordingly until 31.12.2030. The prices shown on our website, in the app and any other available front-ends still include the VAT of 13.5 %. You will find the reduced VAT on your invoice. |  |
| Minimum contract period   | 1 month <sup>2)</sup>   |  |
| Replacement card          | 7.50 EUR  |  |

## **Charging Abroad**

The rates that apply to an individual charging event at the respective charging station can be found in the app and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

VOLVO

#### Volvo public charging service

provided by Digital Charging Solutions GmbH

All prices include VAT

- 1) The prices displayed as "flexible prices" vary depending on the operator of the charging station and are subject to change. Additional fees, such as session fees, blocking or other time based fees, may apply at certain charging stations. The current applicable price, <u>plus</u> any additional fees, will be displayed at a selected charging station in the map of the Volvo Cars app or on the Volvo public charging service website and can be checked directly prior to initiating a charging session.
- 2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

## **Charging Event Transaction**

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Volvo public charging service service at free charging stations.

All rates incl. VAT, subject to changes and errors.
